

## THE PERIL OF PAIN

Those who fail to keep in the house some reliable remedy for sudden stomach and bowel troubles are overlooking a remedy that may be needed any hour of the day or night. When needed it will be badly needed. In cases of Cholera, Morbus, Diarrhoea and Flux everything depends on having a remedy at hand and it must be a certain remedy.

### Ramsey's Cholera and Diarrhoea Runaway

Is a pleasant remedy to take, is sure and harmless. If it fails to give satisfaction in every respect your money will be refunded.

Price 25 Cents

## FORECAST OF THE WEEK

NEW IMMIGRATION LAWS PASSED BY CONGRESS IN FEBRUARY GO INTO EFFECT.

The new immigration laws placing numerous restrictions upon the incoming of undesirable foreigners will go into effect Monday. The most important change brought about by these acts, which congress passed in February, is the increase of the head tax from \$2 to \$4, with the provision that all over \$2,000,000 of the revenue so derived will revert to the United States treasury, instead of being entirely devoted to the uses of the immigration bureau. Inasmuch as the immigration for the past two years has been exceedingly small, the income to the government from this source will be considerable.

Another change makes the steamship companies subject to a fine of \$500 for transporting physically or mentally defective immigrants or those afflicted with loathsome or contagious diseases. The law further provides for deportation of women found to be leading immoral lives within three years after their arrival. The immigration officials are also empowered to arrest those who harbor women of this character, and the law fixes a fine of \$500 and imprisonment for five years in event of conviction for such offenses.

The Emperor and Empress of Germany will visit the King and Queen of Denmark at Copenhagen July 3.

It is rumored in Danish court circles that the Emperor's third son, Prince Axel, is engaged to Princess Thyra, the second daughter of King Frederick.

The one hundredth anniversary of Giuseppe Garibaldi, the Italian liberator, will be celebrated throughout Italy on July 4. The government has appropriated \$200,000 to be distributed among the patriotic followers who are in need.

## CANDIDATE FOR GOVERNOR

FRANK STEARNS, MAYOR OF SHAWNEE, IN RACE FOR GOVERNORIAL HONORS.

Shawnee, Ok., June 29.—At midnight tonight Frank Stearns, mayor of Shawnee, announced his candidacy for the Republican gubernatorial nomination of Oklahoma. The announcement came at the close of a big banquet tendered Stearns by Shawnee Republicans, at which he was urged to enter the race. In a speech Stearns declared his opposition to federal interference with the fight for statehood, declared that he stood for the constitution with such modifications as would be made when the convention reconvened and openly declared war on the present Republican state organization, charging it with seeking to defeat the will of the people. His speech was rather sensational in its outspoken criticism of federal appointees in the two territories who have opposed placing a state ticket in the field, thus placing the Republican party on record as being against statehood. He predicted the Tulsa state convention July 12 would repudiate them. Stearns announced that he would immediately enter upon an active canvass of the state. He will likely open his campaign in Indian Territory.

No one perhaps knows why the unfortunate was brought to such an end; perhaps in some far distant state a mother awaits the return of an erring daughter. Kate perhaps began the use of the drug to stop pain, or perhaps to drown the twinge of conscience pangs. No one knows, and with her is sealed the book and story of her life of shame and dishonor.

The remains will be buried this afternoon by the government.

New Nevada Mining Law.

Ardmoreite Special. Goldfield, Nev., July 1.—The new state mining regulations, as revised by the Nevada legislature, become effective today. Among the more important modifications is a clause reducing the period allowed for recording the location and boundary notices from ninety to twenty days.

Police Court News.

Police Judge Galt was greeted with quite an array of Sunday and Saturday night sinners this morning. The charges ranged from common Saturday night drunks to leaving horses hitched in the paved district for a longer period than thirty minutes.

In the motley crowd that was before the judge this morning were two down and out looking individuals who were arrested for trespassing on the property of the Santa Fe railroad company. Among the drunks were several of the old regulars, who donate every Monday morning to the police fund.

The majority of the members paid their fines, while a number took the street sentence. The negroes charged with not working the streets after being warned were let off provided they paid their assessment today. Both left the court room to hustle the necessary simoleons for the street commissioner.

## DEATH OF AN UNFORTUNATE

KATE NORRIS, SOMEBODY'S DAUGHTER, DIES IN JAIL.

## OVERDOSE OF COCAINE

Is the Attributed Cause—The Woman Was a Well-known Character Throughout the Business Section—Highly Educated, But—

Kate Norris, age 25 years, died early this morning in the federal jail as a result of an overdose of cocaine taken Saturday. The remains will be buried at the expense of the government this afternoon in the Pottery field.

The above paragraph would in a probability be sufficient to tell the story of a poor unfortunate woman's death in some of the metropolitan dailies, and would perhaps suffice for the general reading public of Ardmore.

Kate Norris, the subject of this sketch, was a well-known character about town, and while she appears to be between the ages of 40 and 50 years, the jail record shows her age to be 25. Kate was known as "Slats," and lived, when out of jail, in a hotel in the northeastern section of the city with a number of coke friends.

Kate and the negro women all lived together in the hotel and picked up a living, or existence, as the case may be, from the ash piles and waste heaps in the vacant lots and in the rear of the buildings on Main street. Very often Kate would be found in company with the negro woman known as "Coke Lila" around the subway no signs of any other work, picking up coal and wood in the winter time. Many a time the two were together and would stop the passerby on the street and ask for a nickel or a dime with which to buy the drug to use of which they were addicted.

While no record other than that in the jail can be found of the woman's antecedents, it was learned from outside sources that this unfortunate being, created in the likeness of a woman and an Altiwe Providence, was of an excellent family and was well educated, being a woman of rare musical talents. However, like a great many unfortunate who go astray, she became addicted to the use of cocaine and morphine, and this resulted in her being cast out of society and the world. The veil of charity should be pulled over the life of such creatures who are no more.

Kate was released from jail Saturday morning, after having been incarcerated for a month or more past and deprived of her drug, with the admonition that she leave town, the same as the others, but instead of leaving, immediately upon her release, proceeded to get a shot of coke and took too much, with the result that death ensued.

No one perhaps knows why the unfortunate was brought to such an end; perhaps in some far distant state a mother awaits the return of an erring daughter. Kate perhaps began the use of the drug to stop pain, or perhaps to drown the twinge of conscience pangs. No one knows, and with her is sealed the book and story of her life of shame and dishonor.

The remains will be buried this afternoon by the government.

## MANY NEW POSTAL LAWS

IMPORTANT LEGISLATIVE ACTS GO INTO EFFECT TODAY—OTHER DEPARTMENTS AFFECTED.

By Associated Press.

Washington, July 1.—Many important legislative acts passed by the last congress, particularly relating to the conduct of the postoffice department go into effect today, the beginning of the government's fiscal year. In increases in salaries are provided for all postoffice clerks, carriers, rural carriers and employees of the railway mail service. Compensation paid to the railroads for carriage of the mails will be readjusted, and the payment considerably reduced. Postmasters throughout the country will today begin keeping a record of the weight of each class of mail for a period of six months.

Another postal ruling, effective today, makes it unnecessary to affix a special delivery stamp to a letter or parcel to expedite its delivery. Special delivery will be made of any mail bearing ten cents in ordinary postage, in addition to the regular postage, provided the sender writes the words "special delivery" on the envelope.

During the fiscal year beginning today many rural delivery routes will be established, congress having provided an increase of over \$6,000,000 over last year's appropriation for this purpose.

While the postoffice is most favored by new legislation, other departments have not been neglected. The interior department today commenced an inquiry as to whether it is advisable to abandon the various pension agencies throughout the country and arrange to pay direct from Washington.

Nearly one billion dollars appropriated at the last session of congress becomes available with the beginning of the fiscal year. The navy department will have \$25,000,000 more at its disposal than it had during the year just closed.

Railroad men are especially interested in the provision of the new law requiring railroads to install uniform methods of accounting, which became operative today.

## PLAN REVOLT IN CHINA

NEGOTIATIONS PENDING IN JAPAN REVEAL PLANS FOR REVOLT IN CHINA.

Tokio, June 30.—That there is substantial basis for the general anticipation of a revolution in China is shown by certain negotiations pending between representatives of the reform element and certain foreigners in Japan. The details of these negotiations reveal the fact that there undoubtedly is in China a broad and comprehensive revolutionary movement now in the hands of men wise enough to work quietly and hide their time; that this movement is in no sense anti-foreign but has as its sole purpose the overthrow of the Manchu dynasty in the interest of a government of China by pure Chinese; that the movement undoubtedly has the backing of a good deal of money, with prospects of a great deal more, once the possibilities of success can be demonstrated.

A well-known foreign expert has been approached by accredited representatives of the Chinese reformers with an offer of any sum within reason if he will undertake the construction at one of the strategic points in the interior of China of a fine modern arsenal. He will, it is understood, undertake the work, having finally satisfied himself as to the sincerity of the movement and the ability of his would be employers to make good their promises, financial and otherwise.

As evidence of their financial standing and of their good faith they disclosed to this gentleman the presence here in Japan of a fund of 400,000 yen which is to be placed at his disposal just as soon as he signs a final contract.

New Cotton Mill Law.

Ardmoreite Special. Columbia, S. C., July 1.—The new ten-hour labor law affecting cotton mill employees in South Carolina went into effect today, necessitating a rearrangement of the time schedule of all mills. The act was passed by the last legislature by a large majority, after numerous vain attempts to get it through in previous years. The law limits the hours to 42 a week, the 40-hour law becoming effective the first of next year. All of the mills have announced that the act will be promptly and permanently obeyed, both in letter and spirit.

## POINTS TO REMEMBER

Every Appliance for Woman's Work Should Be the Best for Its Purpose.

There is as great a difference in the cost of making a sewing machine as there is in making a watch. A cheap watch will indicate time with fair accuracy for a short time; fairly good stitching can be done on some of the old patterns of cheap sewing machines when they are new, but they always work hard, are noisy, and soon wear out.

Every Singer and Wheeler & Wilson machine is tested by actual sewing at the factory; it is always ready for every kind of stitching and will do better work and do it longer than any other, because it is of better design and construction.
